SEPTEMBER 2026: FUND FACTSHEET

Global Leaders Fund

Marketing Communication

Fund Objective

The Brown Advisory Global Leaders Strategy invests in the top 30-40 leading companies that we believe deliver exceptional customer outcomes. We perform fundamental analysis to identify global companies that are taking market share and are able to compound performance over long periods of time.

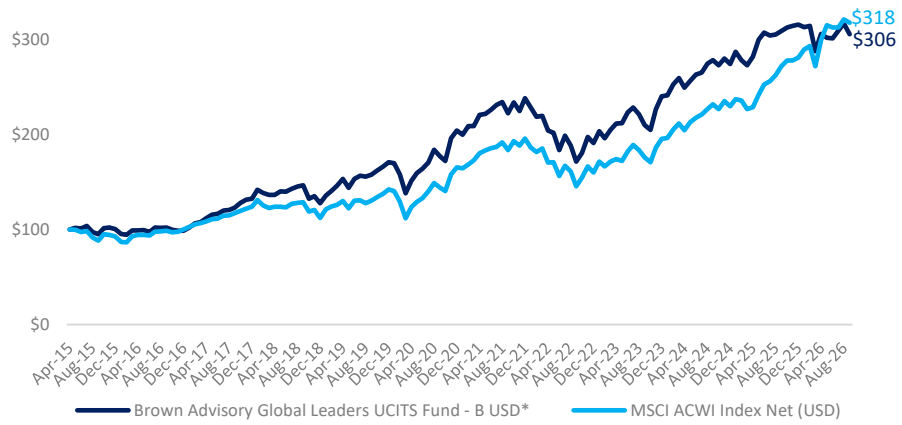

We use franchise quality, management quality, quantitative measures and investability to identify a global leader. We believe that companies that combine exceptional outcomes for their customers with strong leadership can generate high and sustainable returns on invested capital (ROIC), which can lead to outstanding shareholder returns. We search across the globe for companies that meet these criteria and invest in 30-40 of these to create a concentrated portfolio of companies that we believe have the ability to deliver attractive returns for their investors. We focus on quality and seek to purchase these companies when we believe they are undervalued by the market. Our philosophy also embraces sustainable investing principles as part of our due diligence as we believe understanding how a company engages with its stakeholders is key to understanding value creation.

The Fund is an Article 8 financial product for the purposes of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability related disclosures in the financial services sector (SFDR). Sustainable investment considerations are one of multiple informational inputs into the investment process, alongside data on traditional financial factors, and so are not the sole driver of decision-making. Sustainable investment analysis may not be performed for every holding in the Fund. Sustainable investment considerations that are material will vary by investment style, sector/industry, market trends and client objectives. The Fund seeks to identify companies that it believes may be desirable based on our analysis of sustainable investment related risks and opportunities, but investors may differ in their views. As a result, the Fund may invest in companies that do not reflect the beliefs and values of any particular investor. The Fund may also invest in companies that would otherwise be excluded from other funds that focus on sustainable investment risks. Security selection will be impacted by the combined focus on sustainable investment research assessments and fundamental research assessments including the return forecasts. The Fund incorporates data from third parties in its research process but does not make investment decisions based on third-party data alone. Brown Advisory relies on third parties to provide data and screening tools. There is no assurance that this information will be accurate or complete or that it will properly exclude all applicable securities. Investments selected using these tools may perform differently than as forecasted due to the factors incorporated into the screening process, changes from historical trends, and issues in the construction and implementation of the screens (including, but not limited to, software issues and other technological issues). There is no guarantee that Brown Advisory's use of these tools will result in effective investment decisions. The decision to invest in the Fund should take into account all the characteristics and objectives of the Fund as described in the Prospectus.
