Marketing Communication

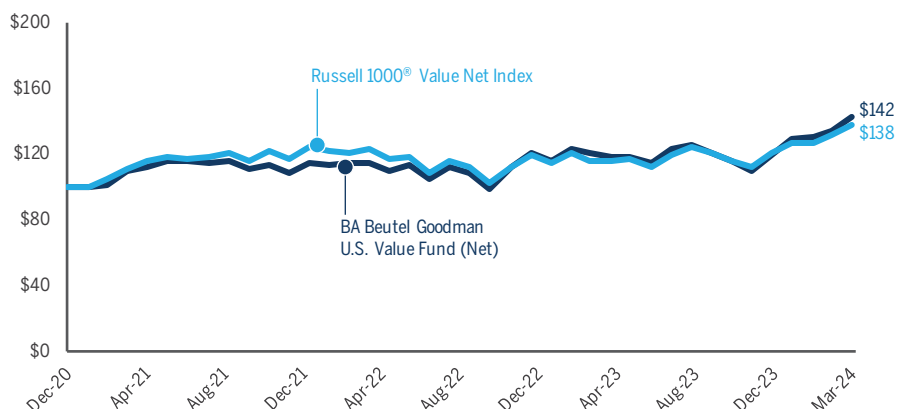

Fund Objective and Proposition

The Brown Advisory Beutel Goodman U.S. Value Fund was launched under Brown Advisory's Dublin UCITS umbrella on 30th November 2020. It is sub-advised by Beutel, Goodman & Company Ltd., which has been managing a U.S. Equity Strategy since 1985. The Fund seeks to generate long-term capital appreciation by investing in a concentrated portfolio of high conviction ideas: typically 25-35 U.S. companies which have been carefully selected to meet defined quality criteria, and are undervalued in relation to their future cash generation ability. The Fund uses bottom-up, fundamental research to invest in companies at discounts to their business value, defined as the present value of their sustainable free cash flow. Stocks bought at a meaningful discount to business value may offer an inherent margin of safety¹ and return potential. The fund focuses on quality companies with stable, growing businesses and strong balance sheets which should mitigate the potential of capital loss, and requires a minimum expected return of 50% on initial investment over three years.
