SEPTEMBER 2026: FUND FACTSHEET

U.S. Sustainable Value Fund

Brown ADVISORY Thoughtful Investing.

Marketing Communication

Fund Objective

The Brown Advisory U.S. Sustainable Value Fund aims to achieve competitive risk-adjusted returns over a full market cycle while providing a margin of safety over time by investing in a concentrated portfolio of companies that we believe have proven durable fundamental strengths, exhibit capital discipline, attractive valuation and a Sustainable Cash Flow Advantage (SCFA). The Fund will identify companies that possess strong or evolving SCFAs. A company is considered to have SCFAs if it is focused on culture and capital discipline, operational excellence and superior customer outcomes that lead to both long-term financial performance and certain positive sustainability outcomes. SCFAs have one or more characteristics that, seek to simultaneously strengthen both long term financial performance and sustainability outcomes. Portfolio Manager, Michael Poggi, seeks fund differentiation through a targeted research- intensive approach that is focused on uncovering what we believe to be attractive investments that meet our strict criteria.

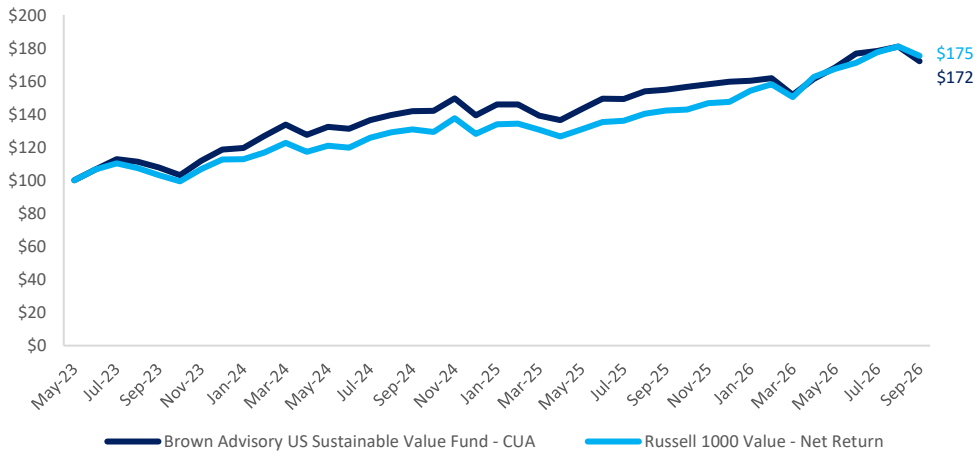

We are exclusively focused on companies at the intersection of strong fundamentals and our SCFA analysis. We identify these companies through the use of our 3P investment filter which considers People, Process and Product. This allows us to find companies that are gaining an advantage or reducing risk by improving their business practices which in turn drives outperformance.

SCREENS

The Fund intends to invest in companies that promote environmental and social characteristics, as determined by Brown Advisory, and seeks to screen out particular companies and industries. In addition to our in-house and qualitative sustainable investment research, we rely on a third-party provider to apply a rules-based screening process that seeks to identify companies that may have controversial business involvement, as determined by Brown Advisory. For example, the Fund seeks to exclude knowingly owning companies that may defy the United Nations Global Compact Principles and seeks to impose investment guidelines on possible business practices including, but not limited to, weapons, animal testing, fossil fuels, adult entertainment, alcohol, tobacco and gambling. The Fund is an Article 8 financial product for the purposes of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability related disclosures in the financial services sector (SFDR).

Note: For further information please contact us and see our website: www.brownadvisory.com/intl/ sustainable-investing. It is important for investors to understand that the data informing this process is derived from third party sources, including companies themselves. Although we believe our process is reasonably designed, such data is inherently subject to interpretation, restatement, delay and omission outside of our control. Investors are informed that criteria applied in developing "socially responsible" screens may be additional to the criteria disclosed above.

The Fund is an Article 8 financial product for the purposes of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability related disclosures in the financial services sector (SFDR). Sustainable investment considerations are one of multiple informational inputs into the investment process, alongside data on traditional financial factors, and so are not the sole driver of decision-making. Sustainable investment analysis may not be performed for every holding in the strategy. Sustainable investment considerations that are material will vary by investment style, sector/industry, market trends and client objectives. The Fund seeks to identify companies that it believes may be desirable based on our analysis of sustainable investment related risks and opportunities, but investors may differ in their views. As a result, the Fund may invest in companies that do not reflect the beliefs and values of any particular investor. The Fund may also invest in companies that would otherwise be excluded from other funds that focus on sustainable investment risks. Security selection will be impacted by the combined focus on sustainable investment research assessments and fundamental research assessments including the return forecasts. The Fund incorporates data from third parties in its research process but does not make investment decisions based on third-party data alone.

Brown Advisory relies on third parties to provide data and screening tools. There is no assurance that this information will be accurate or complete or that it will properly exclude all applicable securities. Investments selected using these tools may perform differently than as forecasted due to the factors incorporated into the screening process, changes from historical trends, and issues in the construction and implementation of the screens (including, but not limited to, software issues and other technological issues). There is no guarantee that Brown Advisory's use of these tools will result in effective investment decisions.
