Fourth Quarter 2023

U.S. LARGE-CAP GROWTH

WHY INVEST IN BROWN ADVISORY GROWTH EQUITY?

A focus on companies that can potentially sustain high rates of growth. Fund manager Ken Stuzin focuses on finding companies with strong business models and capable management teams that have the potential to maintain attractive growth throughout a market cycle. The process is based on deep fundamental research and investments are concentrated in companies that offer compelling valuations based on potential upside and downside risk.

Disciplined portfolio decisions driven by competition for capital. The manager maintains a concentrated portfolio and a strict “one in, one out” discipline to ensure that existing holdings are constantly competing against new ideas to hold their place in the portfolio. This concept of “Darwinian capitalism” helps the manager to ensure that the high-active-share portfolio is constantly optimized around investments that offer the most attractive risk-return potential.

A shared culture of thoughtful investing. Brown Advisory’s investment team is made up of independent thinkers who nonetheless share a common philosophy. We invest for the long term in what we consider to be exceptional businesses, and we keep our portfolios focused on a relatively small number of our best investment ideas. We believe that this sort of active management is the best way to attempt to generate long-term outperformance versus our benchmarks.

Past performance does not guarantee future results.

Source: U.S. Bank. Performance data quoted represents past performance and is no guarantee of future results. Performance for periods greater than one year is annualized. Current performance may be lower or higher than the performance data quoted. Investment return and principal value will fluctuate so that an investor's shares, when redeemed, may be worth more or less than original cost. Performance for other share classes will vary. Shares redeemed or exchanged within 14 days of purchase will be charged a 1.00% fee. Performance data quoted does not reflect the redemption or exchange fee. If reflected, total returns would be reduced. For the most recent month end performance, please call 1-800-540-6807.

- Founded in 1993
- 100% of colleagues collectively own approximately 70% of the firm's equity

Terms and Definitions

Market Capitalization is the value of the fund as determined by the market price of its issued and outstanding stock. The **Weighted Average Market Capitalization** of a portfolio equals the average of each holding's market cap, weighted by its relative position size in the portfolio (in such a weighting scheme, larger positions have a greater influence on the calculation). The **Weighted Median Market Capitalization** is the median market capitalization of a fund's equity portfolio gives you a measure of the size of the companies in which an equity fund invests. It is the trimmed mean of the market capitalizations of the stocks in the fund's portfolio.

Earnings growth rate is based on consensus estimates derived from FactSet as of 12/31/2023 for the 3-5 year period, and is not a measure of the Fund's future performance.

Price-Earnings Ratio (P/E Ratio) is the ratio of the share of a company's stock compared to its per-share earnings.

The Brown Advisory Funds are distributed by ALPS Distributors, Inc., which is not affiliated with Brown Advisory LLC.

FactSet® is a registered trademark of FactSet Research Systems, Inc.

Before investing you should carefully consider the Fund's investment objectives, risks, charges, and expenses. This and other information is in the summary or statutory prospectus, a copy of which may be obtained by calling 1-800-540-6807 or visiting the Fund's website, www.brownadvisoryfunds.com. Please read the prospectus carefully before you invest.

The value of the Fund's investments in REITs may change in response to changes in the real estate market such as declines in the value of real estate, lack of available capital or financing opportunities, and increases in property taxes or operating costs. The Fund may invest in ETFs, which may trade at a discount to the aggregate value of the underlying securities and although expense ratios for ETFs are generally low, frequent trading of ETFs by the Fund can generate brokerage expenses. The recent growth rate in the stock market has helped to produce short-term returns for some asset classes that are not typical and may not continue in the future. Because of ongoing market volatility, fund performance may be subject to substantial short-term changes. Diversification does not assure a profit or protect against a loss in a declining market.

The Fund is the successor to the investment performance of the Predecessor Fund as a result of the reorganization of the Predecessor Fund into the Fund on October 19, 2012. Accordingly, the performance information shown for periods prior to October 19, 2012 is that of the Predecessor Fund. The Predecessor Fund was also advised by the Adviser and had the same investment objective and strategies as the Fund. The Growth Equity Fund offers three classes of Shares. Investor Shares commenced operations on June 28, 1999 as part of the Predecessor Fund, Advisor Shares commenced operations on May 18, 2006 as part of the Predecessor Fund, and Institutional Shares commenced operations on October 19, 2012. Performance shown prior to inception of the Institutional Shares is based on the performance of Investor Shares, adjusted for the lower expenses applicable to Institutional Shares. Prior to July 1, 2011, the Advisor Shares were known as A Shares. Prior to October 19, 2012, Investor Shares were known as Institutional Shares.

The Russell 1000® Growth Index measures the performance of the large-cap growth segment of the U.S. equity universe. It includes those Russell 1000® Index companies with higher price-to-book ratios and higher forecasted growth values. The Russell 1000® Growth Index is constructed to provide a comprehensive and unbiased barometer for the large-cap growth segment. The Index is completely reconstituted annually to ensure new and growing equities are included and that the represented companies continue to reflect growth characteristics. The Russell 1000® Growth Index and Russell® are trademarks/service marks of the London Stock Exchange. It is not possible to invest directly in an index.
