First Quarter 2022

INTERMEDIATE-TERM BOND

WHY INVEST IN THE BROWN ADVISORY INTERMEDIATE INCOME FUND?

The Fund seeks to maximize potential total return through a diversified selection of intermediate-term, high-quality fixed income securities concentrated on our best ideas. This approach follows Brown Advisory's long history of managing intermediate-term fixed income portfolios that have the flexibility to respond to changing market conditions and interest-rate environments. The Fund seeks to provide investors with a foundation for stability in their investment portfolios.

Our investment process seeks to add alpha and control risk. We have a time-tested process that incorporates bottom-up, fundamental credit research, which drives security selection and emphasizes risk mitigation, and proprietary decision-making models that allow us to better identify market dislocations. We seek to identify opportunities for significant price appreciation potential, not just current yield, and focus attention to actively managing average duration to fall between one to five years.

We believe the Fund benefits from the philosophy, process and people at Brown Advisory. We follow a philosophy that fixed income strategies built from a foundation of stability coupled with fundamental credit research can seek to generate alpha and control risk. Portfolios are concentrated based on credit selection, but diversified across sectors. We have a culture and firm equity ownership structure that attract and retain professionals who share those beliefs, and we follow a repeatable investment process that helps us stay true to our philosophy.

Morningstar Rankings represent a fund's total-return percentile rank relative to all funds that have the same Morningstar Category. The highest percentile rank is 1 and the lowest is 100. It is based on Morningstar total return, which includes both income and capital gains or losses and is not adjusted for sales charges or redemption fees. Past performance does not guarantee future results.

Source: U.S. Bank. Performance data quoted represents past performance and is no guarantee of future results. Performance for periods greater than one year is annualized. Current performance may be lower or higher than the performance data quoted. Investment return and principal value will fluctuate so that an investor's shares, when redeemed, maybe worth more or less than original cost. Performance for other share classes will vary. Shares redeemed or exchanged within 14 days of purchase will be charged a 1.00% fee. Performance data quoted does not reflect the redemption or exchange fee. If reflected, total returns would be reduced. For the most recent month-end performance, please call 1-800-540-6807.

Credit quality is calculated using ratings assigned by Moody's. If Moody's does not rate a holding then Standard & Poor's is used. If Moody's and Standard & Poor's do not rate a holding then Fitch is used. A bond is considered investment grade if its credit rating is BBB- or higher according to Standard & Poor's; more specifically, a rating of "AAA" represents the highest credit quality with minimal risk of default and a rating of "BB" or below represents speculative financial security. High Yield, if noted, includes holdings that are rated BB+ or lower according to Moody's. Not Rated category, if noted, includes holdings that are not rated by any rating agencies. All ratings are as of 03/31/2022.
