Fund Objective and Proposition

The Brown Advisory Global Leaders Sustainable Fund aims to achieve capital growth. This Fund implements the same process and is managed by the same team as the Global Leaders strategy that was launched in May 2015. The sole difference is that this Fund adds a back-end negative screening process to create a specific sustainable investment solution for certain clients.

Global Leaders Sustainable is an actively managed equity strategy that invests globally in approximately 30-40 high quality companies. The portfolio managers invest in companies that they believe can generate exceptional outcomes for their customers and that are also able to sustain fundamental and sustainable competitive advantages over long periods of time. With strong leadership positions and high and durable returns on invested capital (ROIC), the portfolio managers believe that these companies are well positioned to generate strong shareholder returns. The portfolio managers allocate to these high quality businesses when they believe their value is underappreciated.

The strategy incorporates Brown Advisory's in house sustainable investment research and seeks to conduct ongoing due diligence via engagement and proxy voting. The portfolio managers specifically look for companies with what they describe as Sustainable Business Advantages ("SBAs"), which are business drivers derived from a company's sustainability strategies, with the potential to generate 1) revenue growth, 2) cost improvement and/or 3) enhanced franchise value. The Fund is an Article 8 financial product for the purposes of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability related disclosures in the financial services sector (SFDR).

SCREENS

The Fund intends to invest in companies that promote environmental and social characteristics, as determined by Brown Advisory, and seeks to screen out particular companies and industries. In addition to our in house and qualitative sustainable investment research, we rely on a third-party provider to apply a rules-based screening process which seeks to identify companies that may have controversial business involvement, as determined by Brown Advisory. For example, the Fund seeks to exclude knowingly owning companies that may defy the United Nations Global Compact Principles and seeks to impose investment guide lines on possible business practices including, but not limited to, weapons, animal testing, fossil fuels, adult entertainment, alcohol, tobacco and gambling. The Fund is an Article 8 financial product for the purposes of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability related disclosures in the financial services sector (SFDR).

Note: For further information please contact us and see our website: www.brownsadvisory.com/intl/sustainable-investing. It is important for investors to understand that the data informing this process is derived from third party sources, including companies themselves. Although we believe our process is reasonably designed, such data is inherently subject to interpretation, restatement, delay and omission outside of our control. Investors are informed that criteria applied in developing "socially responsible" screens may be additional to the criteria disclosed above.

The Fund is an Article 8 financial product for the purposes of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability related disclosures in the financial services sector (SFDR). Sustainable investment considerations are one of multiple informational inputs into the investment process, alongside data on traditional financial factors, and so are not the sole driver of decision-making. Sustainable investment analysis may not be performed for every holding in the Fund. Sustainable investment considerations that are material will vary by investment style, sector/industry, market trends and client objectives. The Fund seeks to identify companies that it believes may be desirable based on our analysis of sustainable investment related risks and opportunities, but investors may differ in their views. As a result, the Fund may invest in companies that do not reflect the beliefs and values of any particular investor. The Fund may also invest in companies that would otherwise be excluded from other funds that focus on sustainable investment risks. Security selection will be impacted by the combined focus on sustainable investment research assessments and fundamental research assessments including the return forecasts. The Fund incorporates data from third parties in its research process but does not make investment decisions based on third-party data alone.

Brown Advisory relies on third parties to provide data and screening tools. There is no assurance that this information will be accurate or complete or that it will properly exclude all applicable securities. Investments selected using these tools may perform differently than as forecasted due to the factors incorporated into the screening process, changes from historical trends, and issues in the construction and implementation of the screens (including, but not limited to, software issues and other technological issues). There is no guarantee that Brown Advisory's use of these tools will result in effective investment decisions. The decision to invest in the Fund should take into account all the characteristics and objectives of the Fund as described in the Prospectus.
