

Sustainable Bond Fund

Investor: **BASBX** Institutional: **BAISX**

Third Quarter 2023

WHY INVEST IN THE BROWN ADVISORY SUSTAINABLE BOND FUND?

The Fund seeks to maximize total return while investing in fixed income securities that meet certain environmental, social and governance (ESG) criteria. The Fund seeks to provide investors with an opportunity to align their investments with their values and make an impact without sacrificing performance.

Concurrent ESG research and fundamental credit analysis provides the basis for a holistic understanding of companies. By incorporating both elements into the due diligence process, we are able to more keenly understand an issuer's associated risks. We seek to identify companies whose ESG characteristics strengthen their credit profiles, as well as issuers whose use of proceeds creates positive societal impact.

We believe the Fund benefits from the philosophy, process and people at Brown Advisory. We believe we can generate alpha and control risk through a repeatable process that combines stability and fundamental credit research. We concentrate portfolios based on credit, but diversify across sectors. Our experienced fixed income team has a long history of managing portfolios in all market environments.

Portfolio Managers: Amy Hauter & Jason Vlosich

Benchmark Index: Bloomberg U.S. Aggregate Bond Index

IMPACT THEMES

- Affordable Housing
- Clean Energy
- Clean Water & Sanitation

CREDIT QUALITY COMPOSITION

As of 09/30/2023	BASBX	INDEX
AAA/Aaa	73.2	73.2
AA/Aa	1.4	2.5
AA-	0.1	--
A+	0.02	--
A	5.3	11.8
BBB	20.0	11.9
High Yield	--	0.4
Not Rated	--	0.3

Credit quality is calculated using ratings assigned by Moody's. If Moody's does not rate a holding then Standard & Poor's is used. If Moody's and Standard & Poor's do not rate a holding then Fitch is used. A bond is considered investment grade if its credit rating is BBB- or higher according to Standard & Poor's; more specifically, a rating of "AAA" represents the highest credit quality with minimal risk of default and a rating of "BB" or below represents speculative financial security. High Yield, if noted, includes holdings that are rated BB+ or lower according to Moody's. Not Rated category, if noted, includes holdings that are not rated by any rating agencies. All ratings are as of 09/30/2023.

DURATION DISTRIBUTION %

As of 09/30/2023	BASBX	INDEX
> 10 Years	6.7	15.0
7 to 10 Years	8.6	18.3
5 to 7 Years	32.7	20.7
3 to 5 Years	20.4	21.0
1 to 3 Years	26.8	23.8
< 1 Year	4.9	1.3

Source: FactSet® Duration distribution includes cash and equivalents. Distribution is subject to change and should not be considered a suggestion or a recommendation to engage in or refrain from a particular course of action or to make or hold a particular investment or pursue a particular investment strategy, including whether or not to buy, sell, or hold any of the securities mentioned. It should not be assumed that investments in such securities have been or will be profitable.

- Independent since 1998
- Founded in 1993
- 100% of colleagues collectively own approximately 70% of the firm's equity

Must be preceded or accompanied by a prospectus.

Mutual fund investing involves risk. Principal loss is possible.

Investments in debt securities typically decrease in value when interest rates rise. This risk is usually greater for longer-term debt securities. Investments in Asset-Backed and Mortgage-Backed securities include additional risks that investor should be aware of including credit risk, prepayment risk, possible illiquidity and default, as well as increased susceptibility to adverse economic developments. In addition, the fund is susceptible to risks from investments in derivatives, U.S. Government securities, municipal securities and its investments in other investment companies.

The Bloomberg U.S. Aggregate Bond Index (Bloomberg Agg Bond Index) is an unmanaged, market-value weighted index comprised of taxable U.S. investment grade, fixed rate bond market securities, including government, government agency, corporate, asset-backed, and mortgage-backed securities between one and ten years. Bloomberg Indices are trademarks of Bloomberg or its licensors, including Bank PLC. It is not possible to invest directly in an index.

Bloomberg® and Bloomberg U.S. Aggregate Bond Index are service marks of Bloomberg Finance L.P. and its affiliates, including Bloomberg Index Services Limited ("BISL"), the administrator of the index (collectively, "Bloomberg") and have been licensed for use for certain purposes by Brown Advisory. Bloomberg is not affiliated with Brown Advisory, and Bloomberg does not approve, endorse, review, or recommend the Brown Advisory Sustainable Bond Fund. Bloomberg does not guarantee the timeliness, accuracy, or completeness of any data or information relating to the Brown Advisory Sustainable Bond Fund.

The Fund's environmental, social and governance policy could cause it to make or avoid investments that could result in the portfolio underperforming similar funds that do not have an ESG policy. ESG considerations are one of multiple informational inputs into the investment process, alongside data on traditional financial factors, and so are not the sole driver of decision-making. ESG analysis may not be performed for every holding in the Fund. ESG considerations that are material will vary by investment style, sector/industry, market trends and client objectives. The Fund seeks to identify companies that it believes may have desirable ESG outcomes, but investors may differ in their views of what constitutes positive or negative ESG outcomes. As a result, the Fund may invest in companies that do not reflect the beliefs and values of any particular investor. The Fund may also invest in companies that would otherwise be screened out of other ESG oriented funds. Security selection will be impacted by the combined focus on ESG assessments and forecasts of return and risk.

(800)645-3923

The Fund intends to invest in companies with measurable ESG outcomes, as determined by Brown Advisory, and seeks to screen out particular companies and industries. Brown Advisory relies on third parties to provide data and screening tools. There is no assurance that this information will be accurate or complete or that it will properly exclude all applicable securities. Investments selected using these tools may perform differently than as forecasted due to the factors incorporated into the screening process, changes from historical trends, and issues in the construction and implementation of the screens (including, but not limited to, software issues and other technological issues). There is no guarantee that Brown Advisory's use of these tools will result in effective investment decisions. Diversification does not assure a profit, nor does it protect against a loss in a declining market. Effective as of June 23, 2023, the Brown Advisory Total Return Fund was merged with and into the Sustainable Bond Fund.

General Terms & Definitions

Alpha is a measure of performance on a risk-adjusted basis. Alpha takes the volatility (price risk) of a mutual fund and compares its risk adjusted performance to a benchmark index.

Total net assets are as of the last day of the quarter and include all share classes.

Average Maturity is the average period of time for all principal dollars to be returned to investors.

SEC Yield (Unsubsidized) is computed under a SEC-standardized formula based on net income earned over the past 30 days over which a bond's cash flows accrue to the bondholder.

Yield to Worst is calculated by making worst-case scenario assumptions on the issue by calculating the returns that would be received if provisions, including prepayment, call or sinking fund, are used by the issuer.
