Brown Advisory Institutional claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Brown Advisory Institutional has been independently verified for the periods from January 1, 1993 through December 31, 2019. The Verification reports are available upon request. Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS standards. Verification does not ensure the accuracy of any specific composite presentation. GIPS® is a registered trademark owned by CFA Institute.

1. \*For the purpose of complying with the GIPS standards, the firm is defined as Brown Advisory Institutional, the Institutional and Balanced Institutional asset management divisions of Brown Advisory. As of July 1, 2016, the firm was redefined to exclude the Brown Advisory Private Client division, due to an evolution of the three distinct business lines.
2. The Global Diversified - Balanced Composite (the Composite) includes all discretionary portfolios invested in the Global Diversified - Balanced Strategy. The strategy seeks to provide capital appreciation and income by investing in ~80% stocks and ~20% bonds and cash. The strategy provides a diversified, low-cost portfolio by investing primarily in ETFs. The strategy's allocation between stocks and bonds may deviate from 80% stocks / 20% bonds and cash due to strategic shifts in asset allocation based on Brown Advisory's proprietary asset allocation research process.
3. The Composite creation date is February 4, 2019. The Composite inception date is January 1, 2019.
4. The benchmark is a blend of 80% MSCI ACWI Index, 15% Bloomberg Barclays Aggregate Bond Index and 5% Cash. The MSCI ACWI Index captures large and mid cap stocks across developed markets and emerging markets. The benchmark covers approximately 85% of the global investable equity universe. All MSCI indexes and products are trademarks and service marks of MSCI or its subsidiaries. The Bloomberg Barclays Aggregate Bond Index is an unmanaged index that consists of 1-10 year governments, 1-10 year corporates, all mortgages, and all asset-backed securities within the Aggregate Index. An investor cannot invest directly into an index. Bloomberg Barclays Indices are trademarks of Bloomberg or its licensors, including Barclays Bank PLC. Benchmark returns are not covered by the report of the independent verifiers.
5. The composite dispersion presented is an equal-weighted standard deviation of portfolio returns calculated for the accounts in the Composite for the entire calendar year period.
6. Gross-of-fees performance returns are presented before management fees but after all trading commissions, and gross of foreign withholding taxes (if applicable). Net-of-fee performance returns reflect the deduction of actual management fees and all trading commissions. Other expenses can reduce returns to investors. The standard management fee schedule is as follows: 0.25% on all assets with no minimum account size. Further information regarding investment advisory fees is described in Part II A of the firm's form ADV. Actual fees paid by accounts in the Composite may differ from the current fee schedule.
7. The three-year annualized ex-post standard deviation measures the variability of the Composite (using gross returns) and the benchmark for the 36-month period ended on December 31. The 3 year annualized standard deviation is not presented because 36 monthly returns for the Composite were not available (N/A).
8. Valuations and performance returns are computed and stated in U.S. Dollars. All returns reflect the reinvestment of income and other earnings.
9. A complete list of composite descriptions, policies for valuing portfolios, calculating performance, and preparing compliant presentations are available upon request.
10. Past performance is not indicative of future results.
